

# JW-HD96N-R2

n-type Bifacial Dual-Glass **Transparent Black** Module

## 435-460W

J-TOpCon  
Technology

460W

Maximum Power  
Output

23.0%

Maximum Module  
Efficiency

0~+3%

Power Output  
Tolerance

### 10-30% Additional Power Generation

30 years lifespan brings 10-30% additional power generation comparing with conventional P-type module.

### ZERO LID (Light Induced Degradation)

n-type solar cell has no LID naturally which can increase power generation.

### Higher Reliability

New generation TOPCon technology for the cell.  
No polysilicon wrap around, no current leakage, and greater resistance to hot spots.

### Better Weak Illumination Response

Higher power output even under low-light environments like on cloudy or foggy days.

### Better Temperature Coefficient

Lower temperature coefficient (-0.28%) and lower working temperature, resulting in more power.

### Wider Applicability

More application scenes like BIPV, vertical installation, snowfield, high-humid, windy and dusty area.
